PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2+ years of experience in web development, building scalable web applications, frontend applications, and backend services using JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL. Skilled in the software development life cycle, API development, database design, microservices, REST APIs, and cloud services (GCP, Azure). Demonstrates strong problem-solving skills, expertise in debugging production issues, and extensive experience collaborating with cross-functional teams to optimize application performance.

TECHNICAL SKILLS

Frontend & Web Dev: JavaScript (ES6+), React.js, Redux, HTML, CSS, Responsive Frontend Applications, Web Development
Backend Services & APIs: Node.js, Express.js, REST APIs, Microservices, API Development, Backend Services, JWT Authentication, BullMQ, Background Job Processing, Debugging
Databases & Search: MongoDB, MySQL, Database Design, Redis, Elasticsearch, Search Technologies
Cloud & Integrations: Cloud Services (GCP, Azure), Social Media APIs, Third-Party API Integrations, Payment Gateway Integrations (Razorpay, Cashfree), Giddh API, Zoho API, OpenAI / LLM APIs
AI & Practices: Prompt Engineering, LLM Integrations, Cursor, ChatGPT, Modern JavaScript Development Practices, Software Development Life Cycle
Tools & Workflows: Git, Git Workflows, GitHub, VS Code, Postman, Figma, Docker, Agile / Scrum Workflows

WORK EXPERIENCE

Full Stack Developer **Jan 2024 - Present**
Bridgeness Technologies Pvt. Ltd. - Reelax (getreelax.com) *Noida, India*

- Architect, build, and maintain responsive frontend applications, scalable web applications, and database-driven applications using React.js, Redux, Node.js, Express.js, MongoDB, and MySQL.
- Lead end-to-end web development and software development life cycle phases, designing and integrating REST APIs, backend services, and microservices while collaborating with cross-functional teams.
- Applied strong problem-solving skills to debugging production issues, optimizing application performance, and implementing modern JavaScript development practices.
- Implemented background job processing with BullMQ, Redis, and search technologies such as Elasticsearch for high-performance data retrieval.
- Engineered social media APIs integrations (Instagram Graph API Comment-to-DM automation) and third-party API integrations (Giddh API, Zoho APIs).
- Integrated payment gateway integrations (Razorpay, Cashfree) and secure authentication using JWT.
- Deployed cloud services (GCP, Azure) and led AI-assisted engineering workflows using Cursor and ChatGPT to accelerate API development and feature delivery.

KEY PROJECTS

Reelax AI Search *(React.js, Node.js, Prompt Engineering, AI Chat, Elasticsearch)*
- Built conversational AI chat for influencer discovery using search technologies (Elasticsearch) where natural language queries update filters, tags, and creator tables in real time. (Live: brands.getreelax.com)

Reelax Brands Platform *(React.js, Redux, JavaScript)*
- Developed a brand-facing SPA for influencer discovery, campaign web development, contracts, analytics, and subscription management.

Reelax Core API & Microservices *(Node.js, Express, MongoDB, MySQL, Redis, BullMQ)*
- Designed backend services, microservices, and database design pipelines for campaign processing, third-party API integrations, cloud services (GCP, Azure), and payout administration.

EDUCATION

Bachelor of Technology (B.Tech) in Electronics & Communication Engineering **2019 - 2023**
Lakshmi Narain College of Technology & Science, Bhopal CGPA: 8.33 / 10.0

LANGUAGES

English (Full Professional) | Hindi (Native)
