PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and scaling production web applications across the MERN stack (MongoDB, Express.js, React.js, Node.js). Expert in AI-assisted development - leveraging Prompt Engineering, Cursor, and ChatGPT to accelerate full-stack feature delivery, code quality, and prototyping. Currently building Reelax across brands web, core APIs, microservices, and LLM-powered discovery.

WORK EXPERIENCE

Full Stack Developer

Jan 2024 - Present

Bridgeness Technologies Pvt. Ltd. - Reelax (getreelax.com)

- Build and maintain responsive full-stack applications with React.js, Node.js, Express.js, and MongoDB for the Reelax platform.
- Built Reelax AI Search / AI Chat using Prompt Engineering and conversational LLM workflows to convert natural-language queries into real-time creator filters, tags, and discovery results.
- Championed AI-assisted development across the team using Cursor and ChatGPT for rapid prototyping, complex refactoring, test case generation, and API schema design.
- Engineered structured prompt templates and AI automation to generate dynamic scripts and task-specific workflows.
- Integrated Giddh Accounting API and Zoho APIs for invoicing, purchase orders, CRM, and financial record automation.
- Built Instagram Graph API Comment-to-DM automation to improve influencer engagement.
- Integrated payments (Razorpay/Cashfree), JWT auth, Redis queues (BullMQ), and Elasticsearch-powered search.
- Optimized frontend/API performance and collaborated on pixel-perfect responsive UI and scalable Git workflows.
